

Dear AHAA member,

Join us at this year's [Automotive Logistics Global conference](#) taking place on September 18th-20th at the Detroit Marriott Renaissance Center.

We have negotiated an exclusive **15% discount** for our members so don't delay – [secure your place today](#) using the code **AHAA** on the registration page.

Finding, inspiring, training and retaining the right people is probably the biggest single challenge facing automotive logistics organisations today in light of all the major changes in the industry.

This year's conference will examine how vehicle manufacturers, tier suppliers, logistics service providers and infrastructure operators can transform their supply chains by concentrating on the human factor.

“

Extremely relevant content, everyone in automotive logistics must attend!

Deborah Newton,
Montway Auto Transport

”

“

Informative, topical - an excellent networking opportunity.

Carl Zimmermann,
Magna Powertrain

”

“

A great venue to gain perspective on OEMs, suppliers, LSP successes and challenges.

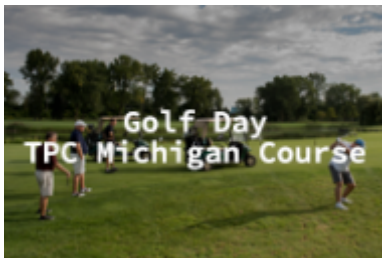

Kevin Wade,
Honda

”

Attend this unmissable event to:

- **Develop a clear understanding** of where the global automotive logistics is really heading right now
- **Find out** how your company can transform your supply chains by concentrating on the human factor
- **Determine** which new technologies offer the greatest potential in terms of optimising your supply chain
- **Meet, greet and develop** your relationships with all the leading players on the North American logistics scene at the impressive gala dinner and cocktail reception

What's on at the AL Global:

Join us for what is set to be a great few days of industry forecasts, case studies and high-level Q&A.

The Automotive Logistics Global conference will also give those attending over 20 hours in which to rub shoulders with an estimated 500 senior-level attendees and 20 industry-leading speakers in a range of networking opportunities.
